### About Ratlam

Ratlam known historically as Ratnapuri (Gem city) is a city in the northwestern part of the Malwa region in Madhya Pradesh State of central India. The New Town of Ratlam was founded by Captain Borthwick in 1829 with regular and broadened streets and well-built houses. Ratlam was once one of the first Commercial Towns in Central India being the centre of an extensive trade in opium, tobacco and salt. It is very close to the borders of Rajasthan and Gujarat. The city is known for its love of food, its taste particularly the world popular salty snack 'Ratлами Sev'. The purity of Gold Jewellery and Saree Market of Ratlam outshines in India. The most famous Jain tirth Bibrod Tirth and also Kalika Mata Temple, Isarthuni, Satruna Mataji Temple, Bilpank Mahadev Temple, Kedareshwar Temple (Sailana), Cactus Garden (Sailana) and Hussain Tekri (Jaora) are situated here.

### Objective of Course

Right steps in a right direction at a right time must be taken to get right results. That's why it is called that "well begin is half done". The CME/ Seminar is designed to impart the participants with knowledge of research methods, research process, and use of research tools and techniques, and writing skills to the young researchers. The specific objectives of the programme are:

- To familiarize participants with basic research methods
- To enhance knowledge base and develop skills of participants for selecting appropriate research technique
- To provide the participants with a broad overview of design of experiments techniques
- To provide guidelines about ethical issues in research and project proposals writing

By the end of the programme, the participants should be confident in using the right methods and tools to carry out their research work.

### Course Content

- Introduction of Research Methodology
- Research Techniques
- Design of Experiments
- Writing of Project Proposals
- Ethical issues in Research
- Analytical Methods used in Research
- Research Motivation
